ABOUT GPO

The U.S. Government Publishing Office (GPO) is the Federal Government's official, digital, secure resource for producing, procuring, cataloging, indexing, authenticating, disseminating, and preserving the official information products of the U.S. Government. The GPO is responsible for the production and distribution of information products and services for all three branches of the Federal Government, including U.S. passports for the Department of State as well as the official publications of Congress, the White House, and other Federal agencies in digital and print formats. GPO provides for permanent public access to Federal Government information at no charge through our govinfo (<https://www.govinfo.gov>), partnerships with approximately 1,150 libraries nationwide participating in the Federal Depository Library Program, and our secure online bookstore.
