Children’s Literacy Programs:

GPLS will provide structural activities such as read aloud and Arts & Crafts to promote literacy through the Reading Program. Reading aloud enhances reading success, foster creativity, stimulates imagination, and boosts self-esteem.

The adults under the care of this program, along with the assistance from their aide or caseworker, visit monthly as they take part in an Arts & Craft activity. An ADA computer station is available should the adults under this program want to use it. For persons with disabilities, computers open up a whole new world to reveal the persons true gifts and talents.
